6th grade
Holes Book Journal

Directions:
- Complete your journal after reading each chunk.
- Write a summary of the chapters.
- **You will do <u>one</u> of the following per chunk.**
  - **(C) Connect** – make a connection to your life, the world, or another text
  - **(P) Predict** – anticipate what will occur based on what's in the passage
  - **(I) Infer** – add your own idea or conclusion based on clues in the text. For example, what do you know about a character based on the way she is thinking or acting in the text? Or, what is a big message in this text based on what happens?

Chapters 1-12 <u>(You may attached extra paper if needed)</u>

Write a summary of today's chapters.	**Predict** – anticipate what will occur based on what's in the passage

Chapters 13-22

Write a summary of today's chapters.	**Connect** – make a connection to your life, the world, or another text

Chapters 22-28

Write a summary of today's chapters.	**Infer** – add your own idea or conclusion based on clues in the text. For example, what do you know about a character based on the way she is thinking or acting in the text? Or, what is a big message in this text based on what happens?

Chapters 29-39

Write a summary of today's chapters.	**Predict** – anticipate what will occur based on what's in the passage

Chapters 40-50

Write a summary of today's chapters.	**Infer** – add your own idea or conclusion based on clues in the text. For example, what do you know about a character based on the way she is thinking or acting in the text? Or, what is a big message in this text based on what happens?

Summarizing and Making Connections & Inferences: Connecting ideas and making inferences based on evidence or reasoning.	Student doesn't make any attempt at making connections or inferences or summaries.	Demonstrates a basic understanding of a text based on explicit details in the text. Refers to a specific example relevant to that understanding.	Makes an inference based on evidence. Refers to a specific example relevant the inference.	Makes relevant inferences based on evidence. Makes clear connections between two or more specific examples relevant to the inferences.	Makes relevant inferences based on evidence and identifies the larger significance of the inference. Connections between a specific example and the larger idea are clear and appropriate.
