

“Back to School” in 2020

Back to School Communication #1

Re: Parent Portal

Dear Parents:

As you are aware, returning to school for Fall, 2020, will come with several significant changes. One of the changes will include an online enrollment process that will reshape the traditional “student record update days” at each of the schools. While we were already exploring this option before COVID-19, we are pleased to be able to provide this tool that will minimize risk for students, families, and our staff, while at the same time, streamline much of the enrollment/update process.

In order to implement the online enrollment feature, each family will need to have a Campus Parent Portal account. Parents with a Parent Portal account already established do not need to do anything at this time, but we ask that you stay tuned for “next steps” that will be communicated soon.

Parents who do not have a Campus Parent Portal account, are asked to contact their school as soon as possible for assistance in establishing their account. (See contacts below). In addition to enrollment, Campus Parent Portal provides a confidential and secure website that allows parents/guardians to login and view your child’s progress in school. There is also an app available for both iOS and Android devices. The goals of the Campus Portal is to create a better partnership between parents and teachers, so this will become an invaluable tool as we move forward.

We ask that all parents stay tuned to communications that will be forthcoming as we prepare for our return to school.
