2023-2024 Phase One: Executive Summary for Schools

Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Crittenden-Mt. Zion Elementary is located in Dry Ridge. Our community and families are very supportive of our school. There are 3-4 classroom teachers per grade level in grades K - 5. We have preschool available for students 2 days a week based on meeting specific requirements to attend.

School Stakeholders

Identify and describe the school's stakeholder groups. How does the school ensure stakeholder involvement and engagement in the improvement planning process?

SBDM is our school based decision making council comprised of teachers, two parents and myself as the principal. We come together to make decisions focused on student learning. Our PTT is a group of dedicated parents and two teachers who work together to facilitate events and fundraisers to support a positive student experience at CMZ. As a school, we also have a guiding coalition made up of representation from each grade level and area of our school. We spend time together gain insight from all when making important decisions while considering our vision as a school and to ensure we are holding each other accountable to be one positive part of every student's day.

School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs, including the year in which they were last reviewed or revised. Describe how the school embodies its purpose through its program offerings and expectations for students and how stakeholders are involved in its development.

Mission:

To succeed at CMZ, we believe we must create a community of confident students who are inspired to learn and grow by nurturing positive relationships and building connections.

Vision:

Be one positive part of every student's day!

Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

Staffing Additions: We have added a part time counselor and full time SRO to support student wellbeing and safety.

Last year, we had the highest attendance rate in our district.

We have set school wide goals in academics, attendance and behavior. We utilize MAP testing results, a test taken 3 times a year looking at student growth, as well as Kentucky State Assessment results for setting our schoolwide academic goals. Our attendance goal of 95% is based on our previous years overall attendance rate of 93.3%. For behavior, we utilize the dojo App to measure three schoolwide behaviors/focus areas. Our students have ownership of their body, words and belongings. Based on a point system on the dojo app, students are able to attend a schoolwide quarterly reward if they are at or above 80% for the three focus areas combined.

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

CMZ is a great place for your child to learn and grow in a supportive and loving environment.
